Mission Statement

The mission of the National Disability Navigator Resource Collaborative (NDNRC) is to provide cross-disability information and support to Navigators and other enrollment specialists thereby ensuring people with disabilities receive accurate information when selecting and enrolling in insurance through the Affordable Care Act Marketplaces.

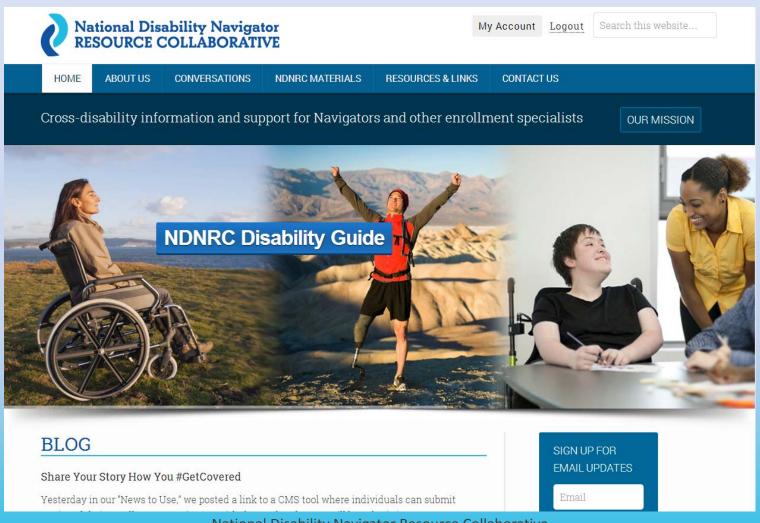

Who is the NDNRC designed to help?

The NDNRC is meant to assist the CMS funded navigator programs as well as other enrollment specialists, such as state-based navigators, connectors, assisters and certified application counselors. However, the NDNRC will also develop the material with a consumer friendly approach so that it will be of use to disability advocates and consumers with disabilities who are enrolling in a health insurance plan.
